IACONO INC AFTERMARKET

Compressed air network maintenance programs

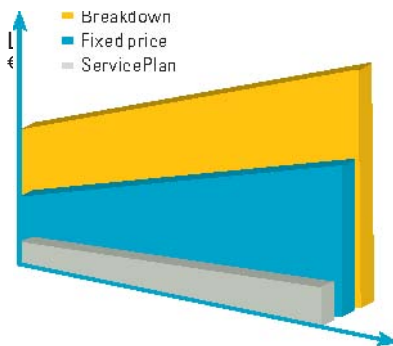

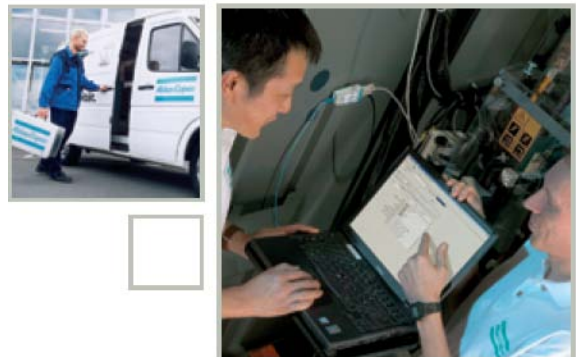

Cover Care and Total Responsibility Program

When production continuity matters

- ▶ Is poor quality air affecting your end product quality?
- ▶ Are compressed air equipment breakdowns interrupting your production processes?
- ▶ Is planned maintenance actually happening?
- ▶ Are repairs performed professionally? Or is it just a patch?
- ▶ Do you have financial and technical information available at the press of a button?
- ▶ Are your maintenance costs fixed? Or is there always another invoice?
- ▶ Do you have a partner that will look for ways to reduce your costs?

Lowest life cycle maintenance cost with a Total Responsibility Plan

Lowest life cycle maintenance cost with a Total Responsibility Plan

Time

▶ Total Responsibility Plan

The Iacono Inc Total Responsibility Plan delivers exactly what it states. It is a complete maintenance system with fixed annual costs for the agreed period. In other words, it offers total peaceof-mind when it comes to your process continuity, and allows for clear maintenance cost forecasting. Iacono Inc takes care of all planning and data storage during the agreement. .

- 5 year PM contract (based on hours)
- Full 5 year warranty coverage bumper to bumper
- All required parts, labor & travel expenses
- Detailed reporting
- Data storage
- Engineering improvements to covered equipment
- Equipment kept in prime operating condition
- Renewable every 5 years at a cost
- Emergency service included

▶ Iacono Inc ServicePlan is the answer

We don't just preach customer care, we actually practice it – ServicePlan is designed to deliver the manufacturer's recommendations for your compressed air equipment within your requirements.
